

UNBELIEF

UNBELIEF RELEASES DEBUT ALBUM

Since the beginning in 2007 UNBELIEF has gone full speed ahead and with the release of the debut album "Dread" set to hit stores on February 5, 2010 through Gateway Music the band is determined to prove that they are one of the most promising names on the Danish metal scene.

In the pursuit of the right sound after the release of their EP "Fuck Me Break Me Shape Me" UNBELIEF has played live with bands like Hatebreed, Entombed, Mercenary, Artillery and many more. During the summer of 2009 UNBELIEF made two pre-productions of their debut album and the result spoke for itself when the band entered SomeStudio.dk in Odense, Denmark, to record the album.

"Dread" is produced by Michael Hansen and Peter Ø. Christensen of SomeStudio.dk, who i.e. produced Megalomania 999's "Rebirth" and the Danish compilation "Hell Comes Around: The Second Coming". The album is mixed by Michael Hansen and mastered by Lennart "Bazzi" Hansen of BigAssProduction. The cover was made by Nicolei Martin Agaard Rasmussen of Pixed Interactive and can be viewed [here](#). In the album's booklet there are three paintings done by former lead guitarist Jonathan Christensen, who earlier in 2009 suffered from a case of panic attack.

By choosing these producers the album has gained a sharp and focused sound where the many layers that a modern metal production contains is combined in the sound-sphere as one single unit. There was worked a lot on the basic sound beforehand which has granted the opportunity to make a production that exceeds the quality of many other Danish metal productions.

With the addition of Nikolaj Balle to the band's line-up, UNBELIEF is now geared to tour the country during the winter and spring of 2010 and show Danish metal fans what the album is all about. So far the following dates have been confirmed:

- 5th of February 2010: Release party at Kansas City, Odense (DK)
- 9th of April 2010: The Rock, Copenhagen (DK)

To celebrate the release of "Dread" UNBELIEF has shined up their MySpace page and the brand new song "Never Fall" taken from the debut album can be heard right [here](#).
